EXPERIENCE

Freelance Backend Engineer

Self Employed

October 2024 - Present, Remote

- Integrated an AWS RDS PostgreSQL database for a startup's (Ecobridge) Shopify plugin, modeling merchant accounts, configuration settings, and cache data, improving sync reliability and reducing Shopify API calls by ~30%.
- Implemented a reliable Shopify OAuth flow in Node.js (Express) and TypeScript to securely handle app installation, token exchange, and merchant authentication that reduced auth-related errors by ~10%.
- Leveraged modern AI coding tools (Cursor, GPT) to accelerate prototyping and documentation, reducing development time by ~25%.

Fiber Optic Technician

Polaris Communications

January 2022 - January 2023, Austin, TX

- Contributed to Google Fiber's infrastructure deployment and quality assurance for network operations unlocking an estimated \$2.3M in annual recurring revenue.
- Configured and tested high-speed fiber circuits using OTDR and power meters, meeting Google Fiber's performance standards and reducing installation-related service issues by ~15%.

Fiber Optic Technician

Unmuted Communications

January 2021 - January 2022, Austin, TX

- Assisted in city-wide fiber infrastructure roll out for Granger, TX enabling high-speed connectivity for 400+ homes and businesses.
- Resolved 20+ service-impacting incidents, coordinating with engineering teams to restore connectivity and improve network reliability for clients such as Google Fiber and AT&T.
- Installed and maintained critical network infrastructure across data centers, hospitals, and government facilities.

PROJECTS

Weather Alerts API Backend (Node.js, Express, TypeScript)

Personal Project • github.com/ReneMSdev/weather-alerts-backend

- Developed a production-ready REST API that fetches weather data from the National Weather Service for cities in the US.
- Built and deployed a PostgreSQL DB using Drizzle ORM to store device and location metadata and manage relationships between them.
- Implemented Redis caching and scheduled cron jobs for automated weather retrieval, resulting in ~40% faster response times.
- Set up GitHub Actions CI/CD pipeline for automated builds, validation, and deployment.
- Provided REST endpoints for a cross-platform iOS / Android mobile app built with React Native (Expo) and TypeScript.

EDUCATION

Bachelor of Science in Computer Science

Western Governors University • Salt Lake City, UT • 2024

CERTIFICATIONS

AWS Certified Cloud Practitioner

Amazon Web Services • 2025

Linux Essentials

Linux Professional Institute • 2024

ITIL 4 – Foundation Certificate in IT Service Management

PeopleCert (AXELOS) • 2024

Professional Scrum Master I (PSM I)

Scrum.org • 2023

SKILLS

Backend: Node.js, Express, REST APIs, TypeScript, JavaScript, Python

Databases: PostgreSQL, MySQL, Drizzle ORM, Schema design

DevOps / Cloud: AWS, Docker, CI/CD (GitHub Actions), Terraform, Linux

Tools: Git, GitHub, Figma
