Summary

Low voltage technician with 5+ years of experience supporting residential and commercial infrastructure projects including fiber optic installation, structured cabling, and coax telecom systems. Experienced working in field environments using testing equipment, hand tools, and safety-focused practices. Seeking to transition into an Electrical Apprentice role to build a long-term career in the electrical trade.

EXPERIENCE

Fiber Optic Technician

SandCastle (contracting for GFiber)

March 2026 - Present, Austin, TX

- Supporting GFiber's deployment across residential and commercial environments throughout the Austin area.
- Installing, testing, and troubleshooting fiber optic connections using diagnostic equipment while maintaining quality and safety standards.

Freelance Software Developer

Self Employed

October 2024 - January 2026, Remote

- Integrated an AWS RDS PostgreSQL database for a startup's (Ecobridge) Shopify plugin, modeling merchant accounts, configuration settings, and cache data, improving sync reliability and reducing Shopify API calls by ~30%.
- Leveraged modern AI coding tools (Cursor, GPT) to accelerate prototyping and documentation, reducing development time by ~25%.

Fiber Optic Technician

Polaris Communications (contracting for Google Fiber)

January 2022 - January 2023, Austin, TX

- Contributed to Google Fiber's infrastructure deployment and quality assurance for network operations.
- Configured and tested high-speed fiber circuits using OTDR and power meters, meeting Google Fiber's performance standards and reducing installation-related service issues by ~15%.

Fiber Optic Technician

Unmuted Communications

January 2021 - January 2022, Austin, TX

- Assisted in city-wide fiber infrastructure roll out for Granger, TX enabling high-speed connectivity for 400+ homes and businesses.
- Resolved 20+ service-impacting incidents, coordinating with engineering teams to restore connectivity and improve network reliability for clients such as Google Fiber and AT&T.
- Installed and maintained critical network infrastructure across data centers, hospitals, and government facilities.

Cable Technician

DCOMM (contracting for Spectrum)

January 2018 - January 2021, Austin, TX

- Installed commercial and residential telecom services including internet, VOIP phone, and television.
- Mounted and configured modems, routers, and customer networking equipment; performed dedicated IP setup and optimized wireless optimization..
- Terminated coaxial cable (RG-6/11/59) and copper (Cat5, Cat6) cabling, upgraded legacy infrastructure and validated signal performance.

EDUCATION

Bachelor of Science in Computer Science

Western Governors University • Salt Lake City, UT • 2024

Certifications

Apprentice Electrician License

Texas Department of Licensing & Regulation • 2026

SKILLS

Fiber & Cabling: Fiber optic installation, Cat5/Cat6, coax termination, low-voltage systems, running new lines

Troubleshooting: OTDR testing, power meters

Field Work: Hand tools, equipment installation, commercial & residential experience
